Guidelines for Trade Stand Exhibitions

All applicants must complete the form below

Using the guidelines shown below, please consider what risk there is to those building up trade stands and to members of the public during the show. Outline the steps you propose to take to minimise that risk in the table overleaf. Please copy this page if more space is required. If in your opinion there is no risk please print NO RISK.

Hazard	Who might be harmed	Is more needed to control the risk
Look only for hazards, which you could reasonably expect to result in significant harm under the conditions in your workplace. Use the following examples as a guide:	There is no need to list individuals by name – just think about groups of people doing similar work or who may be affected. e.g.	For the hazards listed, do the precautions already taken:
Slipping / tripping hazards	Office Staff	<ul style="list-style-type: none"> • Meet the standards set by a legal requirement? • Comply with a recognised industry standard? • Represent good practice?
Chemicals (e.g. battery acid)	Maintenance personnel	<ul style="list-style-type: none"> • Reduce risk as far as reasonably practicable?
Moving parts of machinery (e.g. blades)	Contractors	<p>Have you provided:</p> <ul style="list-style-type: none"> • Adequate information, instruction or training? • Adequate systems or procedures?
Work at height (e.g. from mezzanine floors)	People sharing your work	
Pressure systems	Operators	
Vehicles (e.g. fork lift trucks)	Cleaners	
Electricity Dust (e.g. from grinding)	Members of the public	
Fumes (e.g. vehicle engines)	Pay particular attention to:	
Manual handling	Staff with disabilities	
Noise	Visitors	
Livestock on stand	Inexperienced staff	
Lifting operation	Lone workers – they may be more vulnerable	Where the risk is not adequately controlled, indicate what more you need to do (the 'action list')
Fire Hazard e.g. combustible materials (rubbish, flammable substances, LPG etc.) and ignition sources (flames, smoking etc.)	As above	Means of escape; fire detection and alarms. Fire fighting equipment and fire evacuation plan
